Hi Duc -

Here is that cheat sheet that I mentioned. This is not an official submission but I believe that everything is correct. I am copying Jim for his records. Please remember that this was not a Touchpoint submission.

Thank you-

Rob

Hi Duc --

I'm not sure if this will help with clarification on where the 3.0L TDI vehicles came from. I have the original presentations and a spreadsheet which may help you follow the replacements with backups and new backups.

Please see the screenshot at the end to help identify Veh 7358 (which I think you were questioning.. maybe?).

Thank you --

Rob

Hi Klaus --

Is this in response to Duc's question as to where the DF data is coming from?

Do you want me to forward this slide with comment to Duc?

Thank you-

Rob

Dear all,

just for your back-up information the car 7358 was in the original family grouping which is in the Appendix B listed under emission compliance besides the car 1889 with the remark "depending on availability" (see screenshot).

Best,
Klaus
